FIRST SYMPOSIUM FOR STEM CELLS AND REGENERATIVE MEDICINE WITH INTERNATIONAL PARTICIPATION

23th March 2011 12:00 p.m.

Holiday Inn, Skopje, Republic of Macedonia

PROGRAM

Organizers of the Symposium:

- National foundation for transplantation (NFT)
- Medical faculty - Skopje, Institute of Immunobiology and and Human Genetics (IIBHG)
- Ministry of Health of RM

Supporters of the Symposium:

- The Society of Gynecologists of Macedonia
- Pediatric Association of Macedonia
- The Society of Haematologists of Macedonia

Objectives:

- Raising awareness for the use of stem cells storage
- Legal frames for transplantation in the field of umbilical stem cells therapy
- Stem cell application in regenerative medicine

Speakers:

- PColin Mc Guckin, Professor of regenerative medicine, Cell therapy research institute, CTI-LYON, Parc Technologique de Lyon St Priest, France
"The future of human regenerative medicine with umbilical cord and cord blood stem cells"
- Prof. Dr Zoran Ivanovic, Aquitaine-Limousin Branch of French Blood, Institute, Bordeaux, France
"Ex vivo expansion of hematopoietic cells: biological basis and pre-clinical development"
- Prof. Melinda Lako, Prof. of Stem Cell Sciences, Newcastle University, Institute of Human Genetics, International Centre for Life, Central Parkway, Newcastle, UK
"Towards the healthy eye, the trip from the lab to the clinic"

- Dr Cherie Daily, Scientific and medical stem cell therapy and regenerative medicine expert, Stem cell clinical trials supervisor, CME moderator, member of ITERA life- scientific forum Brussels, Belgium

“Cord Blood in the Clinics today-where we are”

- Gregory Roumeliotis, Health Economist, MPhil, Director Cryo Save South East Europe, ITERA Life – Sciences Forum Officer South East Europe, Executive Committee Member European Association Hospital Managers

“I T E R A Life – Sciences: introduction to the forum – recent updates – opportunities”

- Prof. d-r Mirko Spiroski, Institute for Immunobiology and Human Genetics, Medical faculty, Skopje, Macedonia
“Macedonian Bone Marrow Donor Registry (MBMDR)”
- Prof. d-r Borce Georgievski, chief of the bone marrow transplantation team, University Clinic for Hematology, Skopje, Macedonia
“Stem cell transplantation in Republic of Macedonia – 10 years experience”
- Prof. d-r Olivera Muratovska, University Children’s Hospital, Skopje, Macedonia

“Stem cells potential application in the field of pediatrics”

Registration and fee payment

Dead line for registration and fee payment for the symposium is 18.03.2011.

- Registration fee: 1.500 den
- Registration fee for students, specialty trainees and young researchers is 1.000 den

Fee payment:

- To: National Foundation of Transplantation
- Bank account no. 210-0641697701-11
- Bank Tutunska banka – Skopje

After payment, please send mail for registration to the following e-mail simpoziumnft@alkom.com.mk with subject: „Registration for the symposium“ and write your name and surname in the message.

General sponsor of the symposium: Cryo-Save Macedonia

The significance of stem cell storage continues to grow as medical advances widen the potential for its use. Cryo-Save considers therefore supporting the R&D in this area as another important corporate activity. We will continue collaborating with centers of excellence that contribute to saving the lives of children and adults alike by developing additional stem cell treatments.

Arnoud van Tulder, Chief Executive officer, Cryo-Save
